README for the
BRIDG Harmonization Package

Prepared by BRIDG Semantic Coordination Committee (SCC)

Becky Angeles (ScenPro/NCI/HL7 RCRIM)
Julie Evans (CDISC/HL7 RCRIM)
Smita Hastak (ScenPro/NCI/HL7 RCRIM)
Lloyd McKenzie (Gordon Point Informatics/NCI/HL7)
Charlie Mead (NCI/HL7)
Steve Sandberg (ScenPro/NCI/HL7 RCRIM)
Wendy Ver Hoef (ScenPro/NCI/HL7 RCRIM)

September 6, 2013

Scope of this Document

This document describes the components of the BRIDG Harmonization Package and provides information for giving feedback to the BRIDG SCC.

Files in the BRIDG Harmonization Package

The following files are included in the BRIDG Harmonization Package:

- **The Process for Harmonizing Project Models with BRIDG.PDF** – This document describes the process followed by the BRIDG Semantic Coordination Committee (SCC) and any project teams wanting to harmonize their semantics with the BRIDG Model. It includes a detailed description as well as an activity diagram representing the flow of activities.

- **BRIDG_Model_Harmonization_Request_Form.doc** – This document is filled out by project teams wanting to harmonize their semantics with the BRIDG Model. It is then submitted to the BRIDG SCC (BRIDGTHC-L@mail.nih.gov) for processing.

- **Principles for Determining What is in BRIDGs Scope and What is Not.PDF** – This document is used by project teams, the BRIDG SCC and the BRIDG Board of Directors (BoD) to determine if a project's scope lies within or overlaps with the scope of BRIDG. Project teams are encouraged to do such an evaluation prior to submitting their *BRIDG Model Harmonization Request Form*.

- **BRIDG Mapping Spreadsheet Template.xls** – This file is used to capture the mapping of project semantics to the BRIDG Model in preparation for and during BRIDG harmonization.

- **BRIDG Modeling and Naming Conventions.PDF** – This file is used to ensure that project teams are aware of the conventions that are used in BRIDG and gives insight into how to model new semantics.

- **How to Build a BRIDG-Based Analysis Model.PDF** – This document provides a brief explanation of how to use the BRIDG Enterprise Architect file (.EAP) to create a BRIDG-based model representing project semantics.

- **README for BRIDG Harmonization Package.PDF** – This document gives an overview of the BRIDG Harmonization Package.

Providing Feedback to the BRIDG SCC

If questions or issues arise when using the BRIDG Model or any components of the BRIDG Harmonization Package, please email the BRID SCC team at: BRIDGTHC-L@mail.nih.gov.
